Friends & Tool Collectors: Tempus fugit - Hard to believe it has been five years since I sent out the first of these lists. Thanks a lot for your enthusiastic responses, and I sincerely hope everyone continues to enjoy the wonderful tools they have gotten here over the years. I know that I had a good time finding them, but have enjoyed the people I met along the way even more. Nothing remains constant, and as you will find some changes in the method of getting your future lists, welcome to tool collecting in the 90's. Lists are now offered by subscription, not that there is any additional editorial content, but only as a method of defraying rising postage, printing, and now envelope costs. Please fill out the enclosed address form and return it with $5.00 for the next three issues. Those with SASE's on file will receive their future lists as long as supplies last. There will still be occasional, random, complimentary lists, but priority lists are now by subscription. Lists are published approximately three times a year, but are dependent on quality of stock and my travel schedule. Thanks again for your support over the past five years.

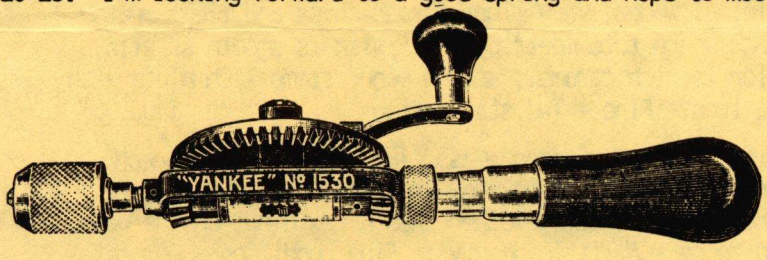
I am home again briefly after a warm Winter in California but plan to be heading East by April 10th, so please order from this list by then. Call 303 795-5650, 8 AM to 10 PM Mountain Standard Time any day. I will be at home continuously when you receive this.

Remember, all items are sold postpaid, guaranteed as described and may be returned for any reason for 5 days after receipt. Please notify me by phone before returning anything. Phone orders held seven days pending receipt of check.

My Spring schedule includes Southwest Tool Collectors in Shawnee, Oklahoma, April 13-15; Tool Chest Auction dealer sale in Sugar Creek, Ohio, April 27; Brimfield, Massachusetts Fleamarket, May 5-12 (See me at the N.E.Motel space 14); E.A.I.A. National Meeting in Mystic Connecticut, May 17-19; and at MWTCA Spring Meeting in Reading, Pennsylvania, June 20-23. I'm looking forward to a good Spring and hope to meet you somewhere along the way.

Thanks for 5 great years

Phil

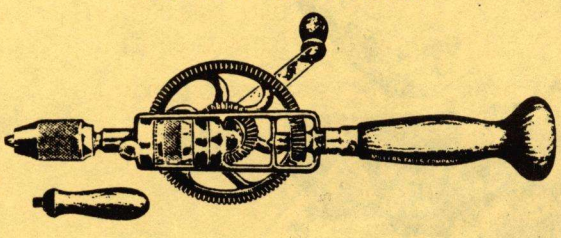


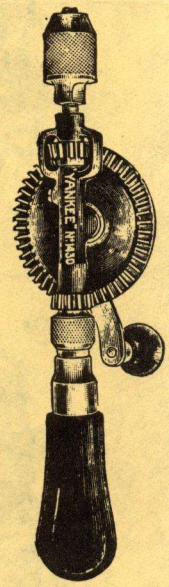
Millers Falls No. 980 2-speed drill - Very sturdy tool in Fine, little-used condition $45.00

Yankee No. 1530 2-speed, ratchet, reverse drill - Pat. April 15, 1913 - Many settings on the ratchet sleave & patent dates - Tool is overall G+ with no damage $45.00

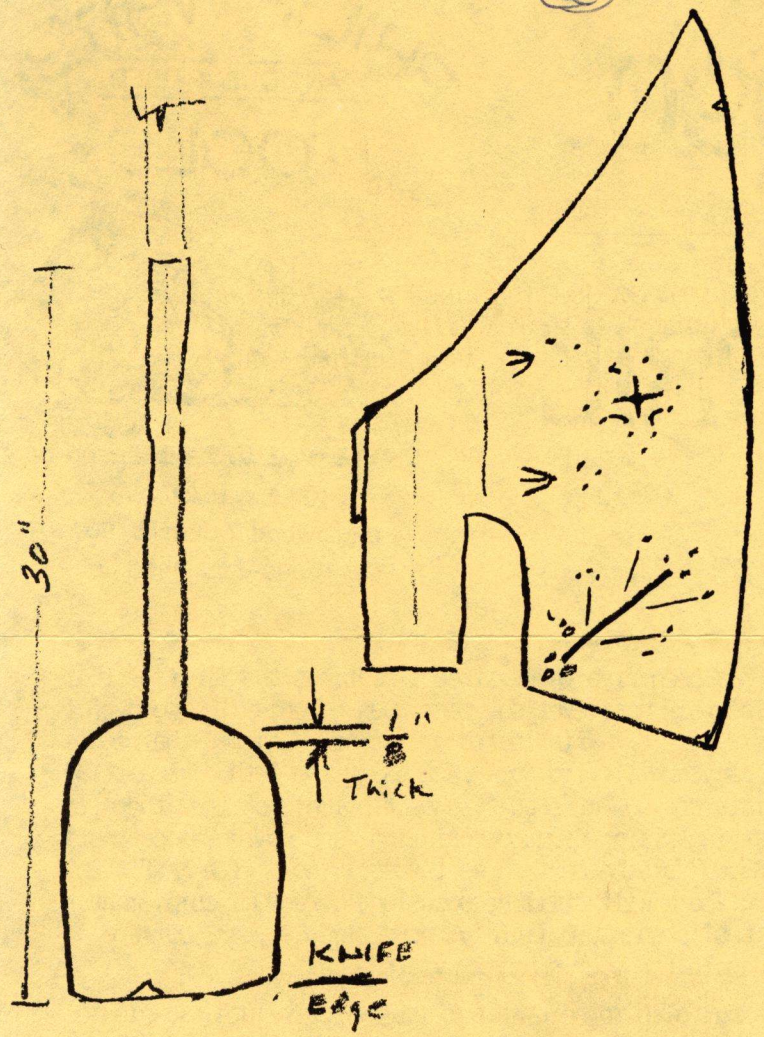
Yankee No. 1430 - 1-speed - Just about the same as above but without all the levers and pawls - G+ to Fine $35.00

No. 980 Hand Drill



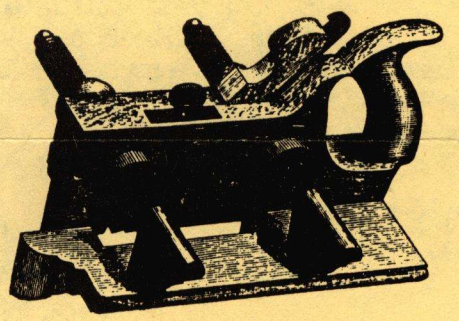


1430



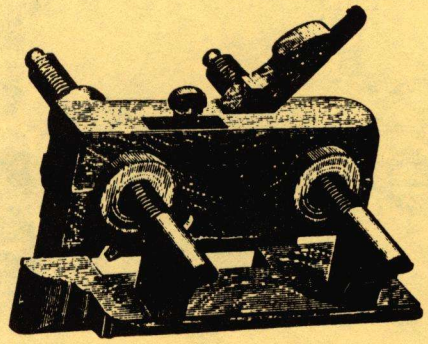
17th Century Austrian goosewing axe - Classic shape with 2 makers marks and Tree of Life design as well as some sort of cross with stars radiating from it - 15" laid on steel edge about an inch and a half wide - replaced handle and tight crack in steel at handle socket Typical pitting and black rust could be graded anywhere from Fair to Fine - Certainly a dramatic tool and at this age considerably rare $700.00

I. Skelton & Co., Sheffield - 10" wide flensing knife or blubber spade with 6' handle - Iron segment of tool about 30" with hand creased socket for wooden handle that has probably been cut off to fit in somebody's house or a restaurant - These tools were usually about 14' long - Those of you interested in the early days of whaling shold appreciate this tool The workmanship in forging the blade is superb - The guy who sold me the tool thought it was for taking pizzas out of an oven - At any rate, this fine specimen of history can be yours, barring any shipping difficulties, for $175.00



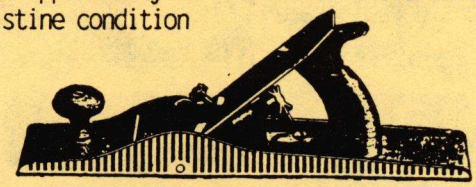
Tucker & Appleton, Boston, Mass. 1868-1871 - Toted solid boxwood screw arm plow - Impeccable New England craftsmanship in this well-proportioned tool with ogee profile skate nose and heel decoration - In Fine condition - Original wedge, very minor thread chips and tight weather check where tote meets body - Finish is smooth as silk, color is rich caramel, and no owner stamp - Complete with one iron - Fine - Two star rating $400.00

Union Tool Co., Goshen, Mass. 1852-1854 untoted beech screw arm plow with boxwood arms and nuts - Near perfect threads and no damage other than a few dings on the wedge and fence - A little beauty in Fine condition - Complete with one iron - One star rating $125.00

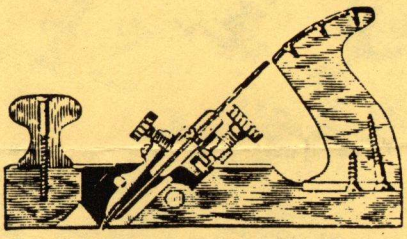


H. G. Stilley Maker - California's only wooden plane maker from the Bay area working sporadically in the late 19th century - This 9" long lignum vitae coffin-shaped block plane carries the blade at a low angle - Replaced wedge and a thin metal wear plate around the throat - A few minor dings - Overall G+ - Rated three stars $375.00

Rodier's patent jack plane - 14 ½ " long 2 1/8" Buck Bros Iron - An accurate reproduction of the previously missing walnut handle is the only detraction from this otherwise like new and rare patented plane. - This is the model employing the rocking frog adjustment mechanism regulated by an iron spider wheel (See TMPIA, p. 183 - illus: 223) or illustration herein A great opportunity to own one of these rare planes in pristine condition $700.00



Pat. Single Iron Plane

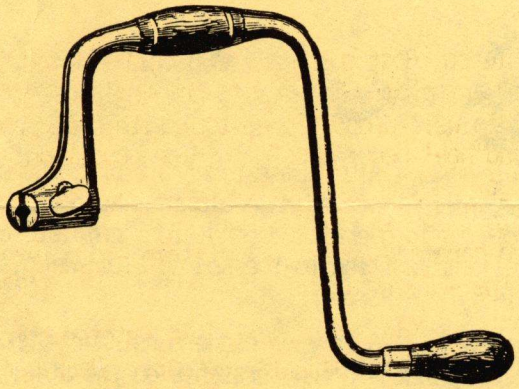


Gage Tool Co., Vineland NJ No. 4 smooth plane - Complete and in G+ condition with the exception of the missing metal plate on top of a now slightly chipped handle $45.00

CHAPLIN'S PATENT BLOCK PLANES.

No. 15.	6½x1⅝ solid throat, japanned finish	Price,	.85
No. 18.	6½x1⅝ solid throat, nickel finish	"	1.10
No. 20.	6½x1⅝ adjustable throat, japanned finish	"	1.40
No. 30.	6½x1⅝ adjustable throat, nickel plated sides	"	1.65

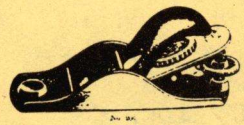
Chaplins Patent No. 30 adjustable throat block plane - Nickel plating dull and some very minor throat chipping - Tool is overall G+ with plenty of iron $65.00

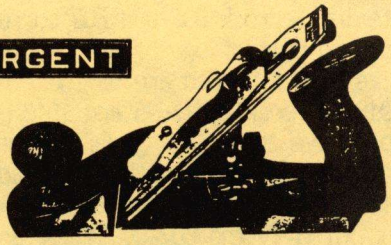


Koeth's Kombination Kit - Combination pliers with six sets of jaws for leather punching, metal snips, tree pruning, end nipping, and pipe wrench, line pliers, etc. - In original wooden box with what appears to be all the parts - Undamaged - Overall G+ $75.00

Clean Cut 14" offset wimble brace with Spofford-type chuck - Rosewood handle and wrist - Apparently Clean Cut was a brand name for a San Francisco hardware house - Overall G+ and complete $45.00

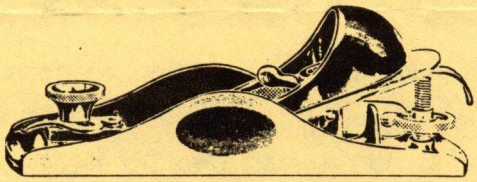
SARGENT





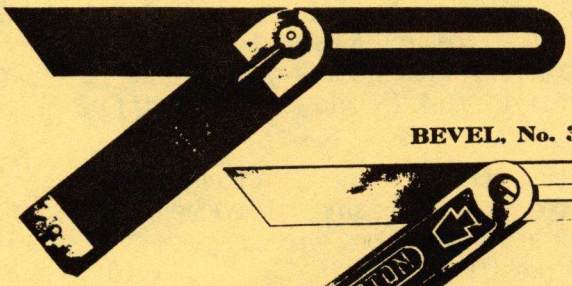
Sargent No. 18-C fore plane - With complex frog adjustment as shown in illus. - Tool is in Fine original condition - 90% + japanning - Blade trademark is elliptical - Smooth Sargent lever cap is proper to this plane (identification Nos. for 418 and 422) - These planes are scarce $125.00

Sargent No. 206 adjustable block plane - 5½" long, 1 3/8 cutter - An interesting plane in that no competitor made a similar sized tool with adjustment - This one is in Fine condition - 90% + paint $40.00

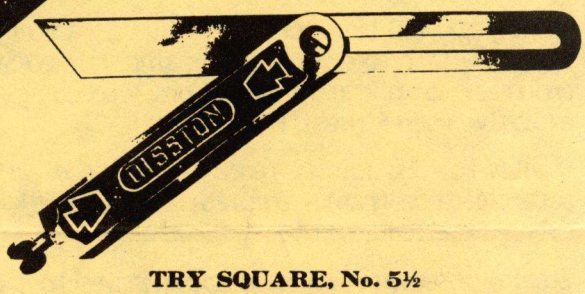


Millers Falls No. 17 block plane - 7" long equivalent to Stanley No. 15 - New in original box - Plane is mint, box faded, but label intact $50.00

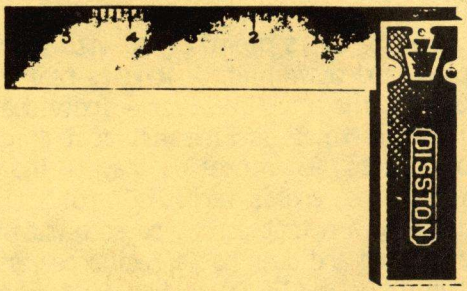
BEVEL, No. 1



BEVEL, No. 3



TRY SQUARE, No. 5½



Henry Disston & Sons No. 5 ½ try square - 4" size - Some tarnish and dirt but Fine $25.00

Henry Disston & Sons No. 1 rosewood bevel - 6" size - Cleaned - G+ $30.00

Henry Disston & Sons No. 3 iron stock bevel - 8" size Nickel plating is dull but the tool is otherwise Fine and complete - Scarce bevel $55.00

Stanley Bedrock 602 and 602 corrugated - A beautiful matched pair of one of Stanley's most desirable No. 2 size planes - Both are of the vintage approx. 1912 - 1918 and bear the 1895 and 1910 patents behind the frog Both have about 90% japanning and Bedrock only on their lever cpas - With full blades and fine woodwork - Either plane easily grades Fine - As a set $1,500 or individually the 602-C, $1,000 and the 602 smooth bottom, 600.00

Stanley No. 39 - 3/4 " iron dado plane - Stanley Rule & Level Co. on cap screw - Fine condition with some tarnish on machined surfaces - Complete - No damage Full balde $65.00

Stanley No. 49 swing fence match plane - Nickel body about 85% plated and dull - Complete with no cutters (will supply No. 45 cutters of appropriate size) - Tool is overall G+ and scarce $125.00

Stanley No. 271 router plane - Black paint indicates war production - Complete and fine $35.00

Stanley S-18 block plane - SHTM on cap - this one is complete and original and not pitted but the paint is almost completely nonexistent - Maybe it was dropped in a can of thinner - Overall G to G+ - Needs cleaning. $55.00

Stanley No. 65 low angle adj. throat block plane - SHTM cap - Nickel dull on cap but almost 100% japanned - A little beauty - Fine $60.00

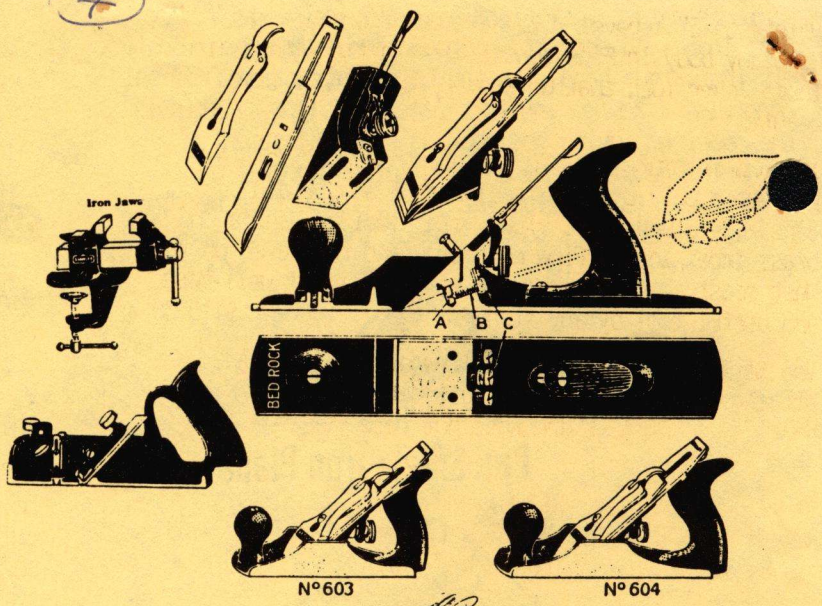
Stanley No. 100½ modelmakers tailed block plane - Black body, red cap - Made in USA blade a little beauty in Fine condition with a dab of yellow paint on it as an identifying mark (Should come right off) Fine $95.00

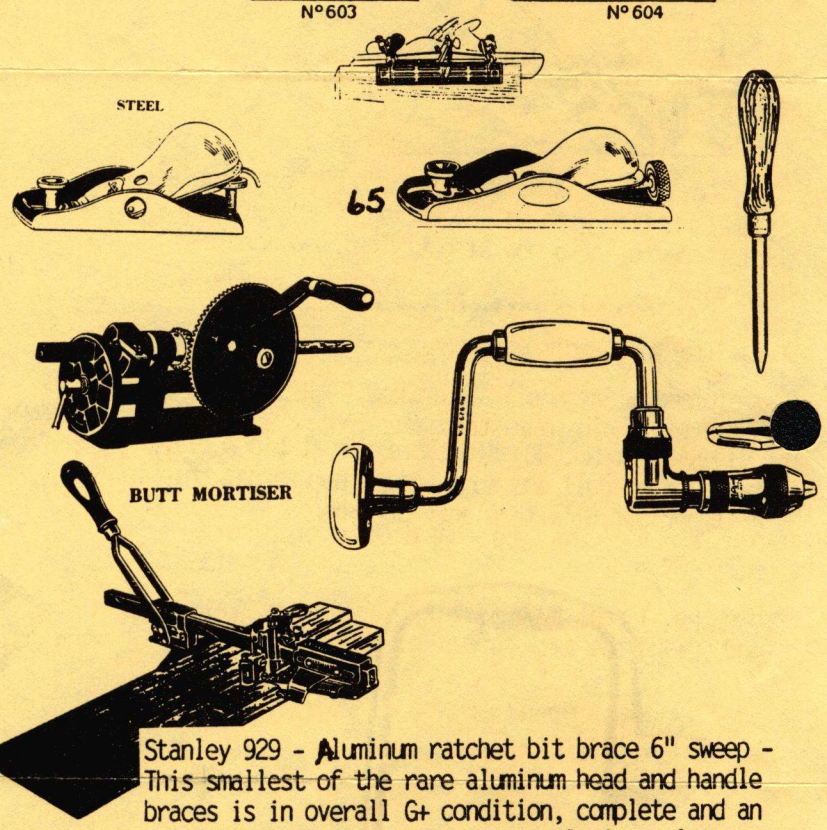
Stanley No. 280 butt mortiser - This is a complete Stanley with orange handle and paint, marked Stanley and ready to work at hanging doors - No damage or excessive wear - Overall G+ - Fine $95.00

Stanley No. 386 jointer fence - Later model without patent date on frame - Complete - 80% nickel plating dull - Excellent user tool $70.00

Stanley rosewood razor edge spoke shaves Nos. 81 and 82 - Both of the rare shaves individually or as a set - The 81 is overall good with some pitting on the blade and shave plate - Wood is near Fine with a tiny chip at the blade receiver - Individually $200.00 The rare No. 82 is Fine with most original varnish on wood and 95% nickel on shave - The blade mechanism is replaced and is tarnished with a tiny chip on the clamping arm that cannot be seen when the tool is assembled and does not affect appearance or performance Individually $275.00 or $425.00 for both.

Stanley No. 741 iron jaw vise - This is the Blue vise circa 1927 in the smallest size - SHTM on jaw bar - This one is overall G+ with use and wear but no damage $75.00





Stanley 929 - Aluminum ratchet bit brace 6" sweep - This smallest of the rare aluminum head and handle braces is in overall G+ condition, complete and an excellent addition to the scarce aluminum plane collection - Rare $250.00

Stanley No. 185 scraper blade burnisher - Round tapered blade - A few scratches on the steel of an otherwise Fine tool $30.00

Stanley No. 77 dowel rod turning machine - I have 2 to offer - Both machines are complete with no damage and can be considered in G+ to Fine condition Machines are offered with assortments of cutter heads and these determine the price - The first has four cutter heads: ¼, 3/8, ½, 5/8 - $350.00; the second has seven cutter heads: ½, 5/16, 3/8, ½, 9/16, 5/8, and 3/4 - $500.00

Stanley No. 4 trammell points - Later model with grey paint and nickel fittings - Fine working condition $20.00

STANLEY TOOLS

Holdfast -6" T-bevel with a rosewood or Honduras Mahogany body in Fine condition with the interesting thumb lever lock that works very well - A little beauty $40.00

Simon & Skidmore Mfg. Co., Santa Anna, California, Patented July 8, 19 - Adjustable square and bevel - 6" size - Blued steel blade with aluminum handle and brass index lock - Fine condition and rare even on the West coast - Will send photo on request - A well-made and useful tool by any standard $110.00

Von Slyke Tool Co., North Hollywood, Calif. - Adz attachment for carpenter's nail hammer - Patent No. 488,174 is eroneous and does not refer to this tool - Tool is as new $45.00

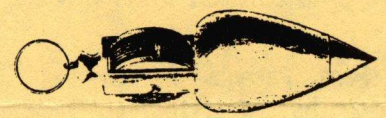
The Calhoon rafter and polygon bevel - By A.O. Calhoon Victor, MO; Pat. Feb 5, 07 - I have had one of these before and they're quite useful for laying out just about anything an architect can dream up - A heavy square scale with quadrant loaded with numbers and a movable arm with level vial - Nickel plated and rosewood filled - This one is only in Good condition and the proper truncated nut has been replaced, but these are scarce and apparently Victor, MO, where they were made, has since become a lake - Tool overall Good. $250.00

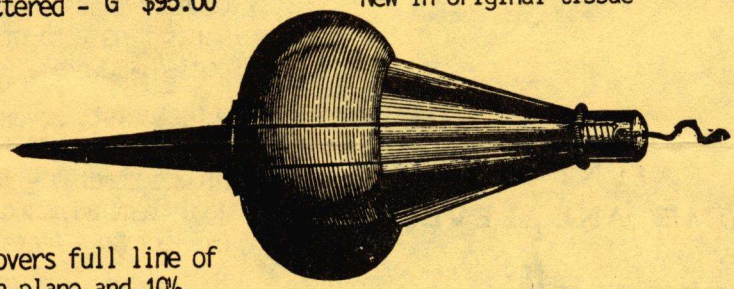
Richards Mfg. Co., Aurora, Ill. Wizard wrench 8" - In Fine condition with the tiger striping still on the steel from the hardening process $95.00

Iron plumbbob (Sargent?) - Unmarked - 4lb. size - This one will hold your string straight - Scarce in this jumbo size $40.00

Millwrights Plumbbob - No. 2 size - 2 lb 4 oz - Removable point/stem type - Good Acorn cap with knurl - Overall G+ $135.00

Stanley No. 1 reel type plumbbob - Unmarked reel is dinged up and the axel screw is battered - G $95.00





Original Catalogs:

Stanley Tools No. 34, 1964. 96 p. Covers full line of carpentry tools including H-104 bench plane and 10½ bench rabbet plane. Catalog Fine $30.00

Stanley Plane Facts - 20 page booklet - 1968 - Illustrates planes, sharpening, use, etc. - Fine $15.00

Stanley Catalog No. 53 - Carpentry tool line for 1953 - 48 pages black & white - As new $15.00

Stanley Tools Catalog No.34 - 1926 - 192 pages - Full tool line including 4-square, Marsh tools, Several pages in color - Catalog G+ $50.00

The L. Beckmann Co., Toledo, Ohio - 1923 catalog No. 8 of surveying instruments - 80 pages softbound - Covers Company history, manufacturing process, and extensive line of instruments - Photo illustrations and beautiful full color frontispiece of Engineers Mountain Transit No. 128 - Fine condition $200.00

PARTS

Stanley No. 77 dowel rod turning machine frame only - $40.00; small bevel gear with one setscrew - $25.00; Front aligning plate with 9 square holes (small chip does not affect workability) $25.00; cutter for any cutter head only $20.00.

Stanley No. 50 combination plane - Japanned later model with rosewood handle (circa1950) - All pieces 95%+ paint fine - Main stock $25.00; middle section $20.00 - Fence only - $20.00 - Rods (2) $15.00

Stanley No. 45 or No. 55 Com only Nickel plated - Good $20.00

Gage self-setting plane blade - 2½" wide - Proper for G-7 - New unused blade $25.00

Gage Tool Co., Vineland, N.J. - 2" wide blade only - blade used - G+ Proper for planes NOs. 4, 8, 9, 11, 12, and 13 $20.00

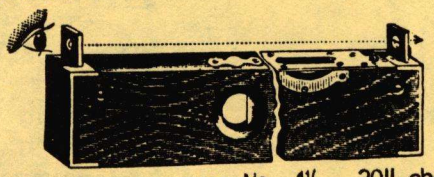
WOOD'S PATENT EXTENSION PLUMB AND LEVEL

Patented



June 14, 1887.

Wood's Patent Plumb & Level No. 1½ - 30" cherry level with pop-up sights - Complete and sights work well but worn stock rates only good - Still an attractive tool $95.00

Stanley No. 13½ carpenters caliper rule - Boxwood early model 1919 and before (See B&I, p. 74) - Bitted with caliper extending through joint marked Stanley only - Legible - G - G+ $85.00

W.H. Brown & Co. Makers Birmingham - 4 foot fourfold cask wantage rod - Boxwood - Complete & undamaged - Marks legible - Good + $75.00

McDonnell Odometer Co. - Lightening speed indicator as illustrated with all accessory tips, mint in the original vest pocket case - Patent applied for - With instructions $75.00

Darling Brown & Sharpe 6½" patent hardened square for wood workers - A beauty in Fine condition that some idiot ma[illegible]ed the corner of, for some unknown reason See dotted line in illustration $60.00

Darling Brown & Sharpe - 6" key seat rule - 1 edge in 16th in.; other in 32nd in. - No damage - Overall G+ $85.00

Darling Brown & Sharpe - Standard music wire gauge - Round - Similar to a USS wire gauge but only 1½" in diameter - Fine $75.00

Darling Brown & Sharpe 6" Ames patent universal square - Nickel plated model of which only about ½ the plating remains - Scarce in nickel plate - G+ $175.00

Brown & Sharpe Mfg. Co. No. 627-C radius gauge for radiuses from 1/32" to ¼" - Patent No. 1,755,125, which by my listing is 1927 - Attractive tool in which each measuring leaf is held in a frame with locking thumbscrew - Complete - Overall G+ $30.00

Standard Tool Co., Athol, Mass. - 3" machinists bevel - Complete and undamaged - Overall G+ $65.00

Sawyer Tool Mfg. Co., Fitchburg, Mass. - No. 10 -2½" adjustable square - A few file marks to beef up the knurl on the thumbscrew - O/W G+ $55.00

St. Louis Caliper Co. exposed thread micrometer reads in fractions of an inch with thimble against graduated beam down to at least the 128th in. - Appears complete and overall G+ $175.00

Greene, Tweed & Co., New York - Patented Nov. 22, 92 reversable speed indicator with bell on the revolution counter that rings every 100 turns - Complete and bell works fine - About 1/3 of the nickel plating has peeled - Overall G+ $150.00

J.H. Boulet, Beverly, Mass. Patents 10/2/00, 9/10/01, and 2/23/04 - 30 thousandths travel indicator - Direct reading - In fitted velvet lined original box - Tool has been used and some clamp marks present - Overall G+ - Appears complete $125.00

L.S. Starrett Magazine screwdriver No. 557 - Complete tool with all four blades with good tips - Fine $40.00

Standard Tool Co., Athol, Mass. 12" iron plumb & level with interesting octagon web design - Adjustable level is complete with no damage - 90% paint dull - G+ $85.00

Davis Patent - M.W. Robinson Co. - No. 8 24" decorative iron level - Vials are in nickel plated tubes that h[illegible] worn to mostly brass and the undamaged iron work has only about ½ its original paint - Still quite attractive Good - G+ $110.00
